

Fiber Optic Patch Panel Modular Slim, 19", 1U

Product Description

PAMix Modular Slim fiber optic enclosure is manufactured to suite splicing of fiber optic cables to fiber pigtails in a cassette or inside splicing tray. Its insert cassette design improve cable management especially when several cables entering the enclosure for fiber splicing to pigtails. PAMix Modular Slim enclosures are designed to be installed on rack cabinet's reals, the enclosure is shipped with mounting brackets. It's usually used to connect active data switches in DC or data switches in multi dwelling buildings.

PAMix Modular Slim enclosure support up to four cassettes. LC connector is the standard connector in the modular enclosures. MPO connecting technology is also available for factory terminated cables.

Modular Slim enclosure is the choice for data center fiber cabling. Each fiber cable can be spliced to a separate cassette that optimize cable management and labeling.
